London, December 18 .- The details of the last and Bolivians, 11,000 strong, marching northward from Noria to effect a junction with a reinforcement of 5,000 under command of the President of Bolivia, attacked on November 21st the Chilean advanced corps of 6,000 men, who occupied an intrenched osition at Dolores, near Agua Panta. The Chilean beavy cannon decimated the ranks of the allies, whose cavalry charged three times upon the guns and attempted to carry them off, but were unsuccessful. In the evening the rear of the Chilean force came up and decided the day. The allied forces were driven back and their camp was taken, in which thirteen cannon were found. Many wounded officers, including the Bolivian General Villegus, were taken prisoners, and another of the allied

Generals was killed. The Chilean loss was heavy. PRILADELPHIA, December 18 - General Grant was asked this afternoon whether he had, as was ansounced, accepted the Presidency of the Nicaraguan Canal Company, tendered him by Admiral Ammen yesterday. "I hardly know enough about the scheme to say much about it," remarked General Grant. " But," urged his questioner, " you can may whether or not you have accepted the Presidency of the company." "Yes," replied the General, "I can satisfy you on that point. I certainly have not accepted the Presidency of it."

NEW YORK, December 19 .- A special to the Star from Philadelphia, 18th, says : Senator Cameron, the newly-elected Chairman of the Republican National Committee, came to this city from Washington to-day in company "with Senators Burnside and Anthony. It was understood that their purpose given for the Russian mission to Cabul last year. was to consult with General Grant with reference to his probable acceptance of the nomination for President if tendered him by the Convention at Chicago in June. It was the general expectation that the question of General Grant's candidacy would be definitely settled to-day, and it is safe to say, from the statements made by prominent Republicans, that It has been settled affirmatively. The details of the conference could not be learned to-night, but the net result, on the best authority outside of General Grant himself, is that the General has intimated his ceptance, provided the nomination is tendered to him by a practically unanimous vote of the Conven-A prominent Republican stated this evening, after an hour's conversation with the General, that Grant would be a candidate again for the Presidency. The Herald says : The first publie exhibition of Edison's long-looked-for electric light talked of will take place New Year's Eve at strip of paper that the breath would blow away. Through this little strip of paper is passed an electric current, and the result is a bright, beautiful, mellow light. "But the paper instantly burns even under the trifling heat of a tallow exclaims the skeptic, "and how then can it withstand the flerce heat of an electric current?" Very true, but Edison makes the little piece of paper more infusible than platinum, more durable than granite, and this involves no complicated process. The paper is merely baked in an oven until all its elements have passed away except its carbon framework. The latter is then placed in a glass globe, connected with wires leading to the electric-producing machine, and the air exhausted from the globe. Then the apparatus is ready to give out a light that produces no deleterious gases, no smoke, no offengive odors ; a light without flame, without danger, requiring no matches to ignite, giving out but little heat, vitiating no air, and free from all flickering light, that is a little globe of sunshine; and this light, the inventor claims can be produced cheaper than that from the chespest oil. The inventor finds that electricity can be regulated with entire reliability at the central station, just as the pressure of gas is now regulated. The entire cost of constructing the lamp is not more than 25 cents.

He had in his possession a number of electric batter-ies, dynamite cartridges, and a complete plan of the Winter Palace. Previous to his arrest a printed Winter Palace would be blown up on the next day,

A Berlin dispatch says : A St. Petersburg letter states that on the same day that the Czar arrived in St. Petersburg the Revolutionary Committee issued a most violent proglamation, which is being distributed daily, and in which they avow that the late attempt on the Czar's life was made by their order, and that, though the attempt failed, they are not

isheartened, but are ready to try again.

A Vienna special says: M. Walujeff, who was formerly a favorite with the Czar, and author of various reform plans, has now fallen into complete disgrace, the Czar having flung his constitutional projects into the fire when Walujeff submitted them. and dismissed Walujeff himself. Gortschahoff and Giers have regained all their former influence. Markoff, Walujeff's secretary, will probably be dismissed and Ignatieff designated as Chief of the Asiatic Department of the Russian Imperial Chancellory.

General Googh's advance, and adds that he shall deprecating the agitation of land reform, opposing peasant proprietorship, and admitting that there is general depression, but suggesting no remedy. William S. Smith, First Lord of the Admiralty, discussed the Zulu war, and affirmed that the Government intended purely defensive measures, but that Sir Bartle Frere exceeded his instructions. He denied that the Government desired the annexation of Zululand, and advocated moderation in general in the South African policy.

LONDON, December 15 -Appeal has reached Lonon from American missionaries at Meeyah, Persia, n behalf of the population in that district and Turkish Kurdestan, who are starving. There is already a partial failure of the wheat and raisin crops. Owing to poverty, only about one-tenth part of the usual import of food has been made, and importation has now entirely ceased. The Government is doing little or nothing. The winter will intensify the distress. The need of relief is urgent.

CALCUTTA, Dec. 12.—An intense excitement was reated here this afternoon by the attempted assassination of the Viceroy, Lord Lytton. His Lordship had just r turned to this city by railway from the frontier, and was met and welcomed at the station by a large gathering of his adherents. After the usual greetings were over, the party entered their carriages which were in waiting and proceeded on their way to the viceregal palace. They had gone but a short distance when a pistol shot was fired by some person in the crowd which lined the streets. The ball passed immediately over the head of the Viceroy, who occupied the rear seat of his carriage.

CALCUTTA, Dec. 15 .- The Pioneer (newspaper) asserts that an immense mass of correspondence has been found and laid before the Government, including instructions from the Russian Government to its agents in Central Asia, making out the course they are to follow with the ex-Ameer, Shere Ali. These papers are said to show that Russian intrigues against Afghanistan were active as far back as 1873, and afford conclusive proof of the falsity of the excuse

New York, Dec. 16 .- A cable dispatch to the Star from London says: Dispatches from Cabul report the the situation at Cabul as serious in the extreme. The Sepoys and hill men who menace the city are inreasing in numbers rapidly, and it is estimated that they now number not less than 12,000 to 15,000 fighting men, a large proportion of whom are furnished with arms of precision and are well drilled in their use. In view of a general attack, which will probably be made by the insurgents, Gen. Roberts has drawn in his lines and collected the troops under his command within the Shupar cantonment, and also ordered reinforcements from the garrisons at Gandamuk and Jellalabad, the latter of whom are now on their way up the Khyber Pass. It is the general opinion in military circles here that an effort must at once be made to clear the country of the enemy and gain the possession, and this can only be NEW YORK, December 21 .- The Herald devotes a done by combined and decisive action. London, Dec 16 .- A dispatch from Chatham says: n view of the serious nature of the late intelligence from Afghanistan the treops now under orders for India will be dispatched earlier than was originally intended. The grave nature of the situation will delay the departure from India of some regiments which were about to return after a long service

LONDON, Dec 17-The Viceroy of India telegraphs o-day that communications with General Roberts are interrupted.

Daoud Shah, formerly Commander-in-chief of the Afghan army, has been professing to co-operate with the British since the occupation of Cabul, and his irrest would seem to indicate recent treachery or the iscovery of proofs of his perfidy in the affair of the slaughter af the British Embassy in Cabul, on which ccasion he was sent by the Ameer to quell the revolt and publicly received the thanks of the British officers for his pretended efforts to assist Cavagnari.

Lahore. December 17.—The Civil and Military Gazette states that General Roberts was warned by a native chief that the tribes were meeting, and that the inhabitants of Cabul were disaffected and were holding frequent communication with the Afghan troops and the hill tribes.

London. December 18 .- A letter to the Cologne Gazette from St. Petersburg asserts that the reason why the police have so little success in discovering Nihilists is that evil is hidden where the police do not venture to look. The conspirators are to be found in the drawing-rooms of the rich and noble hence the police, in the employ of the court within whose very circle these people carry on their games, is powerless against the Nihilists.

New York, Dec 22 .- A cable dispatch to the Tribune says : The Afghan disasters excite general alarm and Tory consternation. The Queen is re-ported to be greatly distressed and publicly blames Lord Lytton for suppressing and distorting information. There are many demonstrations of public indignation at official disingenuousness, and the press, long patient, now denounces the ill-fated and insolent restrictions imposed on correspondents. The result is perilous for the Government. Private remonstrances are numerous and emphatic.
